## COMPUTERSHARE CHANGE-A-LIFE CYCLE

Dis-Chem director, Stan Goesch will be in for one of the most exhilarating rides of his life when he participates in the Change-A-Life cycle from 4 – 9 September. Covering 450km through some of the most scenic wilderness in southern Africa, following the Zambezi river through parts of Zimbabwe, Botswana, Namibia's Caprivi Strip and Zambia, participants will be making a real difference to our society.

Each participant is required to raise at least R20 000 sponsorship in aid of charity. The major beneficiary is the Mike Thomson Change-A-Life Trust, dedicated to funding crime prevention measures and supporting victims of violent crimes, with a special focus on children. The other beneficiary is Children in the Wilderness, an environmental and life-skills programme which brings hope and opportunities to children living adjacent to wildlife areas.

Dis-Chem would like to wish Stan safe cycling and thank the following for their contributions towards supporting this worthy cause:

**Avid Brands, Nativa, Peppina Sales, AB Wellness, Cili Bao, EcoVet, Georen, Josie Milela, Nature Life, Pacmar, PharmaDynamics, Roche, SA Natural Products, Simply Aloe, The Fountainhead, Thebe Pharmaceuticals and Kenza Health**

## NATURA COMPETITION

Natura's 'Win a Gift from Nature' competition is giving away R250 000 worth of diamonds to lucky Natura fans who discover a winning token in their packs of Natura Rescue. These lucky consumers are required to call the number on the token, quote the unique code for verification, and answer a product-related question in order to claim their prize. Congratulations to our latest winner, Rob Abrams who purchased Natura Rescue from Dis-Chem Carlswald! We look forward to many more of our loyal customers winning diamonds courtesy of Natura's "Win a Gift from Nature" promotion currently running in our stores.
