

Issuer Online

Computershare is a leading financial services and technology provider for the global securities industry, providing services and solutions to listed companies, investors, employees, exchanges and other financial institutions.

Using its global network, specialised technology, financial markets expertise and unsurpassed service, Computershare is at the forefront of its industry and is a perfect partner for organisations seeking tailored solutions and superior service.

Issuer Online, a free service for our clients which is accessible from www.computershare.com, is a distribution channel through which Computershare delivers online services to companies, trusts and other issuers. It enables issuers to access Computershare's SCRIP registration system from any Internet-enabled PC.

Issuer Online is designed to empower our clients. The features replace the need for Company Secretaries to use a dedicated SCRIP terminal and a leased line to access register information, or to request routine reports from their Relationship Managers.

As it is accessible over the Internet, Issuer Online can also be made available to a range of personnel within your organisation. All you have to do is nominate them and we will do the rest. The Company Secretary can set each user within the company on an individual permission level.

The Issuer Online service is fast and efficient and gives companies, trusts and other issuers access to their registers 24 hours a day, 7 days a week, from anywhere in the world. Information is updated in real time after transactions are processed on the SCRIP system.

Holder information is protected by comprehensive security measures, including password protection and data encryption.

Current features of Issuer Online include:

- Access from any Internet-enabled PC, using either IE4 or Netscape 4 browsers, or higher.
- Online access to top 10 – 100 shareholder report.
- Online searching for individual holders.
- Online enquiry facility providing full registration details, holding balances, dividend history and other relevant information from a particular holding.
- Transaction history.
- Stock Exchange price information with high, low and volume trade information for the past 5 trading days.

A test company is available for you to trial, just follow these steps:

- Access –
www.computershare.com
- Select – Corporates
- Select – UK
- Select – Issuer Online log-in
- Username – demologin
- Password – Computershare

Other value added Issuer Online services will be made available, on a subscription (or fee for service) basis, in the near future.

If you would like to use the Issuer Online service, or find out more information about it, please contact your Relationship Manager or e-mail bd@computershare.co.uk
